

DEEVNA REDDY

Software Development Engineer | Backend & Machine Learning

Chennai, India | deevnared@gmail.com | github.com/deevredd | linkedin.com/in/deevna-reddy

PROFESSIONAL SUMMARY

Software Development Engineer with production experience at Amazon, specializing in distributed systems, backend pipelines, DSAR compliance architectures, and high-performance machine learning systems.

WORK EXPERIENCE

Amazon | Software Development Engineer (Jan 2025 - Jan 2026)

- Sole owner for DSAR compliance automation on Alexa Calendar serving 50M+ active users.
- Cleared 100% of policy engine risk items across consecutive internal and external audit cycles.
- Led JDK 17 migrations across 15+ microservices with zero downtime, gaining 20% runtime efficiency.

Agilisium Consulting | AI & ML Engineering Intern (Aug 2023 - Oct 2023)

- Built an enterprise HR chatbot leveraging NLP and RAG knowledge retrieval, reducing manual queries by 40%.

REUDE Technologies | Data & Image Analyst (Sep 2023 - Apr 2024)

- Processed drone aerial point clouds and computer vision datasets, improving spatial data accuracy by 20%.

RESEARCH & PUBLICATIONS

IEEE ICCDS 2025 | First Author Research Paper

- Multimodal Fusion of CT Slices and TCGA RNA-seq Gene Expression for Subtype Classification.
- Achieved 98.32% accuracy and 0.99 ROC-AUC. DOI: 10.1109/ICCDs.2025.11209732

EDUCATION

Sri Ramachandra Institute of Higher Education and Research

B.Tech in Computer Science Engineering (AI & Data Analytics) | 2021 - 2025

TECHNICAL SKILLS

Languages: Python, Java, TypeScript, JavaScript, SQL, C++

AI & ML: PyTorch, TensorFlow, Scikit-Learn, Transformers, LangChain, RAG, NLP

Cloud & Systems: AWS, Docker, Kubernetes, Distributed Systems, CI/CD, Microservices
